PDKMining Bot – How It Works

⬜ What is PDKMining Bot?

The PDKMining Bot is a community-driven mining simulation system where users can earn PDK tokens daily by collecting Hashrate (HR). There is no need for real mining hardware — all mining happens virtually within the bot.

⬜ Mining Logic & Phases

PDKMining works in 10 phases (Q1–Q10). Every 4 months, the mining rate per HR decreases to increase scarcity.

Phase	Annual Reward per 1 HR	Daily Reward
Q1	1.00 PDK	~0.00274 PDK (Highest reward phase)
Q2	0.90 PDK	~0.00247 PDK
Q3	0.80 PDK	~0.00219 PDK
Q4	0.70 PDK	~0.00192 PDK
Q5	0.60 PDK	~0.00164 PDK
Q6	0.50 PDK	~0.00137 PDK
Q7	0.40 PDK	~0.00110 PDK
Q8	0.30 PDK	~0.00082 PDK
Q9	0.20 PDK	~0.00055 PDK
Q10	0.10 PDK	~0.00027 PDK (Lowest reward phase)

Your daily mining reward = Your HR × Current Phase Daily Rate.

You can withdraw mined PDK once you reach 1,000 PDK.

There is no limit to how much HR you can collect.

⬜ How to Get Hashrate (HR)

You can get HR in 3 different ways:

1. 1. Purchase HR

- - 100 HR = $0.10
- - Minimum: 100 HR
- - Maximum: Unlimited

2. 2. Invite Friends

- - Each user has a unique invite code (no referral links).
- - If someone enters your code:
- • You get +1 HR
- • They also get +1 HR
- - A user can only use 1 invite code ever.

3. 3. Complete Tasks

- - Occasionally, the bot will offer bonus tasks to earn free HR (e.g. follow, join, share, etc.).

New User Bonus
Every new user automatically receives 70 HR as a welcome gift when they start the bot. This gives them an immediate chance to begin mining without spending any money.

Leaderboard Rewards
The leaderboard rewards top miners based on their mining activity.

Rank	Reward in PDK
Top 1	$200
Top 2	$200
Top 3	$200
Rank 4–100	$20

Summary
- Earn PDK every day based on your Hashrate (HR).
- HR can be purchased, earned via invite codes, or by completing tasks.
- New users receive 70 HR as a welcome bonus.
- Withdraw when you reach 1,000 PDK.
- Secure invite system — no scammy links.
- Top 100 miners win real PDK prizes.
